The President
IDU, North America

Sir,

LETTER OF APPRECIATION

On behalf of the entire Isoko Ethnic Nationality, we want to sincerely appreciate your show of love and deep concern for the Isoko's during their period of need resulting from the flood that ravaged our native communities.

But for your kind gesture during this season, it would have been extra difficult for us to survive. You provided succor beyond measure to us, sending different forms of relief items which includes bags of rice, cows, palm oil, bags of garri, yams, beans, sanitary items and many others.

All of these gave us hope and reinforcing our belief in you as our brothers and sisters in the diaspora. You have demonstrated capacity, showing that you are indeed interested and committed to the survival, unity and development of the Isoko Nation.

God will continue to strengthen you as a people as you keep doing good and in due season our harvest will be bountiful.

Much Regards,

Akpotu Chris
Gen Sec

Dan Odhomo
